

# **LORDS OF NATURE:**

## **Life in a Land of Great Predators**

Greetings,

Thank you for hosting a home screening of *Lords of Nature!* This 60-minute documentary showcases the beauty and importance of wolves and other large predators, and portrays new science that shows how they help keep ecosystems healthy.

You are also part of a worldwide campaign to educate policy makers and the public about the vital role predators play in keeping the balance of nature. The film has been shown in public screenings across North America and recently in South Africa. Screenings have been held in various venues including theatres, on college and university campuses, in wildlife refuges, museums and zoos. These large screenings continue, but we've found that when people see the film and discuss it together in small, intimate groups, they are moved to act on behalf of these beautiful animals. Here's where you come in.

### **In 3 simple steps, you can organize your own Lords of Nature Evening of Action:**

1. Now that you've download the Home Screening Kit, we invite you to work with the Green Fire Productions staff to plan a home screening. Email us today to let us know about your home screening and to get help in the planning of your evening.  
[office@greenfireproductions.org](mailto:office@greenfireproductions.org)
2. Invite family, friends, co-workers, and neighbors to your home for a screening of the film.
3. After the film, lead your guests to take action to protect the Washington Gray Wolf. Instructions for submitting a comment to the Fish and Wildlife Commission can be found here: [http://salsa.democracyinaction.org/o/1201/p/dia/action/public/?action\\_KEY=7413](http://salsa.democracyinaction.org/o/1201/p/dia/action/public/?action_KEY=7413). We can help you with anything else you need to make it easy for your guests to make their voices heard.

On the *Lords of Nature* website, you will find a link to the *Lords of Nature* Discussion Guide [http://lordsofnature.org/documents/LON\\_DiscussionGuide.pdf](http://lordsofnature.org/documents/LON_DiscussionGuide.pdf) Feel free to use the Discussion Guide or parts of it following the film if you believe it is appropriate for your group discussion.

The Home Screening Kit also includes a short screening report to fill out and return to the *Lords of Nature* producers following your screening. It will ask about the number of people attending your event and any feedback you have for them. This information is being compiled to assist in evaluating *Lords of Nature* outreach efforts and reporting to the film's funders.

If you have any questions, feel free to contact me. I'll be happy to help where I can.

Thank you for hosting *Lords of Nature*. Together we can work towards attaining ecologically effective populations of top predators across the country.

Sincerely,

Meg Rayford
